FRESH GROCERIES ALWAYS IN STOCK

Western General Electric Co., Ltd. MOTOR SERVICE.

The time is now come when this Company is prepared to furnish power for all purposes, great and small, by means of Electric Motors. These Motors are so low in cost; occupy so little space; are so easily controlled, and are so exceedingly economical in operation that their use will be practically universal as soon as people understand the matter. There is scarcely a home, or a place of business, in which electric power cannot be used to lighten and cheapen labor. Inquiries solicited.

W. A. MOORE, Managing Director.

Our Firemen Win.

Some seventeen members of the Fire Department left on Wednesday evening for Calgary to take part in the firemen's sports there, Thursday and Friday last. The only firemen's event on Thursday was the hose reel race when the different teams tried to beat the clock. Strathcona, Innisfail, Red Deer and Calgary all competed. Red Deer winning out by 4-5 seconds, doing the run in 37 1-5 seconds. Innisfail took second place getting the job completed in 38 seconds. The other teams took 45 seconds.

The following composed Red Deer team: Rube Gee, B. Martin, Harvey Bawtinheimer, W. Wilson, J. Coghlin, Art Handford, O. Snider, W. Krause, R. Jones, C. Williams.

The Innisfail team entered a protest, claiming Chief Meers had run along and coached his men.

Chief Meers was part way down the course and ran a little way and was unfortunate enough in his exuberant enthusiasm to yell several times. This caused the Innisfail men, when they saw they could not win the cup in any other way, to enter a protest, and the following decision was given.

Calgary May 21, 1907. In re protest entered by Innisfail hose reel team against Red Deer hose reel team, in the Championship Hose reel race run on May 23, the committee have decided that the protest is valid.

Sec. 5 of the rules and regulations distinctly states that no men only, exclusive of one captain or trainer, will be allowed to compete on one team. The protest reads "protest against the Red Deer Fire Dept. for running 12 men." The committee consider that the action of Chief Meers, of the Red Deer Dept. in running with and coaching the team (which was observed by the committee) was an infraction of the rules, and the championship is therefore awarded to Innisfail. The committee hereby offer a trophy to be competed for on the afternoon of the 24th by Innisfail and Red Deer, in a Dry Test Race, the Championship Rules to govern said race, and the trophy to become the property of the winning team.

Signed by Committee. JAMES SMART, Chairman. H. MCLELLAND. H. B. WILSON Sec'y.

Chief Smart himself, though a judge, yelled to his men to hurry up, but he was not found fault with.

Innisfail made three starts and were called back. Only one start is allowed. Innisfail would have thus lost if a protest on such a trivial matter had been entered. Red Deer boys are not built that way.

Every lover of clean sport, including the daily papers in Calgary at once saw that an injustice had been done Red Deer team. To settle the matter the sports committee put up a silver cup to be ran for again on Friday.

In speaking on the matter the

daily News says: Owing to a protest registered by the Innisfail team, last year's cup holders in the hose reel race, and who were beaten in the hose reel race on Thursday, the Red Deer team ran again Friday afternoon and covered the distance in exactly the same time, thereby upholding the reputation as the prize winners. The Innisfail team doing it in 39 odd seconds.

Banners, bands and the empty honor of holding the cup may suit Innisfail but our team have the honor of knowing that they won the cup fairly in the first place and that they upheld their honor by beating Innisfail a second time fair and square worse than before. They have the honor of knowing that they made the best time ever made publicly in Alberta in this race. They above all bore themselves like men and are a credit to the town of Red Deer and we together with the citizens at large are proud of them.

Our boys secured first and second in the ladder contest. J. Coghlin won the hundred yard fireman's race doing it in 11 1-5 seconds.

O. Snider won the dummy race. Time 25 seconds. The fireman ran 25 yards climbed a ladder, entered a room through a first floor window, grabbed a dummy from the bed and carried it down the ladder to safety. Weight about seventy pounds. Calgary was second, in 29 seconds. Innisfail couldn't complete a race.

Calgary won first in coupling contest, time 45 1-2 seconds, Red Deer, second 47 1-2 seconds, E. Martin and H. Bawtinheimer being the lucky team.

The boys speak in the highest terms of the treatment meted out to them by the Calgary contingent from assistant Chief McClelland down.

Jas. F. Gaetz acted as time keeper for Red Deer to the entire satisfaction of all.

Baptist Church Anniversary.

The anniversary services of the Baptist congregation on Sunday and Monday last were most successful. On Sunday the services were of a special character. In the morning a splendid congregation listened to an eloquent address from the text "Law of Life." In the evening the subject of the pastor was "God." The church was crowded to the doors. Special music was provided by the choir, also a male quartette by Messrs. Snell, Brown, Baker and Goodfield.

On Monday evening there was a gratifying attendance, supper being served in the church basement from 6 to 8 o'clock. The tables were tastefully decorated with flowers. At 8:30 o'clock there was an adjournment to the church auditorium, where Rev. J. Black, returned Palestine missionary described his experience. He told of customs, spoke of Mohammedan, Jew and Catholicism, describing the efforts that

are being made to reach all these diverse sections. Rev. W. G. Fortune, Presbyterian pastor, conveyed congratulations and greetings and spoke eloquently of the need of Christians striving to possess a large, well cultivated heart. Not brains, he said, but heart makes the man great. His splendid address was well received. Rev. Alex McDonald, the veteran pioneer Baptist missionary next spoke of the "Beginnings." His interesting story was attentively followed. Miss Baker and Mrs. Goodfield furnished excellent music. At the close pastor Goodfield publicly thanked the young people, ladies and all who had so generously assisted in making the anniversary such a pronounced success. Rev. Fortune pronounced the benediction.

Alexandra Club Concert.

The young ladies of the Alexandra Club are to be congratulated on the success of their concert Thursday evening last. Fighting against many difficulties, people leaving to spend Victoria Day out of town, no-nail meeting and preparation for the holiday, there was not so large an attendance as there otherwise would have been, but the hall was comfortably filled with an appreciative audience and the program was well received. The sketch, "Shakespearean Revival" by a number of club girls was well taken and most amusing. Miss Cottingham took the part of Miss Tucker, the school mistress; Irene Clark that of Miranda Smith, engaged; revisiting school; Etta Smith was the housemaid; while Pidgeon, Iola Tait, Eva Slade, Agnes Peterson, Edith Postill, Nomie Brisbin and Lillie Smith were club girls.

Mr. Wright and Miss Lenore Brumpton rendered pianoforte selections. Little Miss Brumpton played exceedingly well and was vociferously cheered. Mrs. Molson sang "Beyond Earth's Shadow Land." Mrs. Molson has a strong, sweet, wholesome voice under perfect control, and she reaches her high notes without any trouble. Mr. M. Gaetz favored the audience with two fine selections. He will always be a strong favorite. Miss Peterson gave two dances including "top boot dance" and was well received. Mr. C. Bailes gave two selections in his usual splendid voice and Miss F. Fulmer sang "Sloe Eyes". While Miss Fulmer has not a very strong voice it is sweet and charming. Master Howard Gaetz favored the audience with a violin selection which was nicely rendered. Miss Brisbin recited "The Rum Maniac" and Mr. Morris gave a pianoforte selection completing the program. Messrs. Morris, Poulis and Miss Louise Fulmer played the accompaniments. Altogether the concert was a success and the hospital will be the gainers, we hope, by quite a few dollars.

Supreme Court.

The spring session of the Supreme Court opened in the Court House yesterday with Justice Stuart presiding.

J. J. Gaetz, deputy sheriff and F. S. Simpson, deputy clerk of the court, were in attendance.

The following cases comprised the criminal docket:

King vs. Johnston, uttering counterfeit coin.
King vs. Larkin, theft.
King vs. Pocho, horse stealing.
King vs. Stewart, forgery.
King vs. Schuler, theft.
King vs. Tulman, attempted rape.

National Steel Ranges

Have been thoroughly tested with Test and Time. They are not a new creation—110 of these Ranges are in use in this district. All customers agree that they are perfect bakers, with small amount of fuel. Moreover, it is surprising the small amount of repairs that these Ranges require, proving that nothing but the best grades of steel are used in their construction.

Have you seen the "Canada." Prices are no higher than many inferior ranges.

Council Meeting.

Western General Electric Company's Rates Increased.

The regular meeting of town council Thursday evening last, present but Councillor Bottorill.

From Chief Rothlie asking permission to join the Red Deer troop of Light Horse having been offered the position of troop sergeant and that he be granted two weeks leave of absence in the summer. Request granted.

From Exhibition Association re. guaranteeing the association against loss up to the sum of \$500. Referred to finance committee.

From Neil Milfin asking for an increase of salary to \$75 per month. Referred to public works committee.

From Merchants Bank stating interest on over drafts would be future be increased from 6 to 7 per cent until money market was easier. Filed.

Young men's Club Calgary asking Red Deer to participate in a demonstration at that place. Filed.

From Samuel Taylor re water service. Filed.

From Fire Brigade asking the council to assist them in paying expenses to Calgary.

On motion of Gaetz-Tallman a sum of \$100 was granted the Fire Brigade.

From J. C. Moore re nuisance grounds, stating the agreement with town to use same is terminated and asking the town to clean up the property. This step was necessary owing to the fact that Bawlinheimer & Co., and other need by property holders objected to the nuisance.

From C. S. Lott, Calgary, stating the matter of the town's offer for the park property had been referred to owners and would be forwarded in due time. Property and Parks.

From the secretary of the Board of Trade asking the council to invite the delegates of the assembled Boards of Trade at Prince Albert to meet in Red Deer in 1908.

On motion of Councillor Stephenson the Council complied with the request.

A communication was received from G. W. Greene stating that he had been many years on solicitor on a basis of \$20 per month and he considered this far too small for the amount of work being done by the town. He asked for new arrangements. He would not object to a retainer fee similar to that given by Olds, which was

\$150, and he be paid for conveying and by-laws according to nature of same and suit work on tariff basis. In this connection he would suggest that Mr. Payne be made joint solicitor. Innisfail and Lacombe both paid \$100 on the same basis. Referred to finance committee.

A communication was received from W. A. Moore, manager of the Western General Electric company notifying the council of proposed changes in the prices of charges for service rendered by the company. The reasons set forth in explanation was, 1st, the present prices are less than other towns, 2nd, the proposed increase will not be more than in other towns, 3rd, the premiums hitherto have been insufficient for service rendered, 4th, the large increase in prices of all material, and cost of service makes this step necessary.

The following is the proposed schedule of rates:

TELEPHONES.
Business \$35
Residences \$20
Discount of \$2.50 if paid within 10 days after due, payment has been made. An additional \$5 when number of patrons reach 300. Another \$5 when number reaches 500.

FLAT RATE.
This tariff applies to 18 c. p. incandescent lamps except where otherwise specified: for residences per month each up to 2 lights \$1.10; 3 lights \$1.40; 4 lights \$1.70; 5 lights \$2.00; over 5 lights \$2.30.
For 8 c. p. lamps for use only in private residences, bed rooms, 50c.

BUSINESS.
Up to 2 lights \$1.60 each per month; 3 lights \$1.85; 4 or 5 lights \$2.10; 6 to 10, \$1.00; 11 to 20, \$2.10; 21 and over \$2.60; minimum \$1.70.
HOTELS AND RESTAURANTS.
Up to 10 lights, \$1.60 each; 11 to 20, \$2.10; (min \$1.50) 21 up, \$1.10. (min \$25.)

For 8 c. p. for use only in hotel bed rooms, 75c each per month. All night lights, 10 c. p. only, \$1.50.

All lights subject to ten per cent discount, ten days.

METER RATES.
For every 1000 watt hours, 20 cents. Discounts as follows: To \$30, 5 per cent, minimum. Over \$30, 10 per cent min. \$28.50 Over \$50, 15 per cent min. \$45.00 Over \$70, 20 per cent min. \$63.75 Over \$100, 25 per cent min. \$80.00

Ten lights and under, the minimum charge for current supplied shall be \$1 per month; each additional light 5c, meter rental, 25c per month; each additional 10 lights, 50 per month. Town art lamps, moonlight schedule, \$100 per year.

After some discussion wherein the members of the council expressed considerable surprise at the apparent suddenness of the electric company to increase their rates, Councillor Stephenson moved seconded by Councillor Tallman that the communication of the Western General Electric Company be considered in committee of the whole at a special meeting of the council called for that purpose. Carried.

FIRE & WATER.
Councillor Pidgeon brought up the report of the committee on Fire and water.

The committee had dealt with letters from N. Murphy re. erection of a frame house in block 11; and from E. Michener re. cold storage building in block 10; from Staples and Co., re. erection of office in block 15. Your committee instructed the secretary to write N. Murphy informing him he would have to comply with provisions of by-law in his case, and to inform Mr. Michener and Staples and Co., if they would furnish the committee with plans and specifications and estimate cost of the buildings the matter would be further dealt with. In dealing with the letter of J. E. Bower the secretary was instructed to inform him that when the building was completed and painted to inform the committee and the matter would have their further attention. The Tennis club were allowed water from the fire hall to sprinkle the tennis grounds. The committee also recommended that their report of the 6th inst. recommending that a by-law be submitted for \$15,000 for water extensions be affirmed. The report was adopted.

LICENSE.
Councillor Pidgeon brought up the report of the license committee. They recommended that section two of sub section 2 of the by law licensing laundries be repealed. They reported having five persons summoned for infraction of section 8 of by-law no. 7. Report adopted.

LEGISLATION.
Councillor Stephenson brought up the report of the committee on Legislation. They reported that the letter from the department of Public Works, Edmonton relating to sub divisions of the towns was taken up. The solicitor was instructed to draft a by-law in accordance with instructions sent out by the department with our corrections, and additions added thereto.

SEWERAGE.
Councillor Gaetz brought up the report of the sewerage committee recommending that a by-law be submitted to the rate payers as soon as possible for

The report was adopted. **FINANCE.**
Councillor Stephenson brought up the report of the committee on finance.

The committee reported that they had taken up the question of extension of sewerage system through the Moore property east of town. Messrs. Moore stated they were willing to have their land east of the present limits, north of Douglas St. up to and including one row of lots on the east side of Maple avenue taken into the town limits and that they would consent to paying a frontage tax on the property based on the total estimates of a nine inch sewer running from Douglas Street along Maple ave. to the river and starting at a depth of eight feet at Douglas providing the town put the sewer down on Maple avenue. They would make no objection to an outlet on Maple avenue temporarily. The committee also recommended that the \$300 deposit of H. Reinhold be returned to him he having entered into a bond with the town to complete the sewerage system.

MARKET & HEALTH.
Councillor Tallman brought up the report of the committee on Market and Health. The committee recommended that in future all manure be hauled out by the owners or their agents and that they make their own arrangements about disposing of same and that all other garbage and refuse be disposed of as directed by the commissioners. The committee also recommended that the police be instructed to notify all citizens to this effect and that the foreman see about having the present nuisance grounds cleaned up and turned over to Mrs. Annie E. Moore as requested. Report adopted.

PUBLIC WORKS.
Councillor McKee brought up the report of the public works committee recommending grading down two small hills on east side of Park St. \$100. Three ft. plank walk on Park from Dr. Gaetz eastward \$25. 6 foot walk on Douglas from McKenzie to Nanton \$215. Grading Blower from McKenzie to Nanton. Moving walk from Gaetz to Nanton on Mann to Parkvale \$100. Six foot walk on Mann from Gaetz to Nanton \$450. Six foot walk on Alexander from Holt to McKenzie and grading \$400. Opening Kingsmill from Munson to Br.oks at halfway and opening Brooks from Kingsmill to Gaetz \$400. Removing four foot walk from Alexander to Poplar street \$150. Report adopted.

SEWERAGE.
Councillor Gaetz brought up the report of the sewerage committee recommending that a by-law be submitted to the rate payers as soon as possible for

the extension of the following sewers: From Nanton to about one hundred feet west of the C. P. R. tracks a twelve inch pipe and from this point to the creamery an eight inch pipe. A lateral from Nanton on McLeod to Gaetz. A lateral from Nanton on Stewart to Gaetz. Extension of the sewer main from Nanton on Blower as far as McKenzie. The engineers report of the cost of these extensions, including an amount for making these connections would require \$10,000. The laterals on McLeod and Stewart streets were portioned for by two thirds of the property owners on these streets and the creamery was promised sewer connection as soon as the matter was possible.

The committee recommended that a sanitary and plumbing by-law be drawn up. The report was adopted.

A large number of accounts were passed.

Councillor McKee seconded Councillor Gaetz that Mr. Slade be charged \$5 for the extra tap in the green house. Carried. Some discussion took place with regard to concrete walks in center of town. The mayor said in consulting with the engineer that he did not advise doing anything in the matter until further information could be obtained. With regard to some of construction the mayor thought that a far arrangement could be arrived at by charging up to the property 75 per cent of cost, while the town would pay the balance. After some further discussion the Council adjourned to Friday evening May 31st.

Married.
At the rooms of the Rev. W. G. W. Portune, Gaetz Block, on May 24th, Isaac D. Riebeck, of Bawli, to Susie Galloway, of Red Deer.

PIDGON & WALLACE
REAL ESTATE AGENTS.
We have a number of desirable Building Lots and Residences for sale.
Some very excellent Farms are offered on exceedingly liberal terms.
CALL ON US, WE CAN SUIT YOU.

Incubator.
Set the machine level in some dry, well ventilated room, where there are no great extremes in temperature; run it for a short time without eggs and get familiar with its peculiarities, studying all the details; fill and trim the lamp and set it at least once every day and keep the temperature as close as possible, and no one with ordinary intelligence ought to make a failure of the hatching business. It does not require extraordinary genius or ability, but no indolent or careless party need apply.—American Poultry Journal.

Just Herself.
"It was looking about in Bargen's millinery department to-day," began the young wife cooingly, "and I saw the sweetest thing—"
"Yes," interrupted her foxy husband, "that's a great idea, Bargen's to put mirrors all around where you women congregate."

Bit of Advice.
"Why, you took the words right out of my mouth," she protested.
"Well," he replied, "you shouldn't try to talk when I am asserting you."

England's potato crop averages over six tons an acre. Russia grows barely two tons to the acre.

LOYALTY TO THE EMPIRE.

Premier of Transvaal, Late Against Us, Talks Canadian Sense.

Before Gen. Botha became head of the Transvaal Ministry he made a statement meant for publication in South Africa's leading newspaper. "British supremacy will be safer in the hands of the Boers than in those of the English," he declared. The questions of the flag and of supremacy have been settled for all time. They are settled in an unflinching manner. We are now concerned with our domestic

GENERAL BOTHA.

affairs. Having got free government, our natural desire is, and our sole endeavor will be, to so govern that the country shall prosper and the two races be drawn together. At Vereeniging I signed the treaty of peace. I then solemnly accepted your King and your flag. They are now our King and our flag. People talk about our hostility to the mines.

We simply object to the men who run the mines also running the country. Had I wished ill to the mining industry I should have had the fullest opportunity during the war of wrecking the works along the Witwatersrand reef. I recognized then that my people must look to the mines for help, and as I protested the mines they should I said that they are not injured now. This talk of wholesale Chinese expatriation regardless of consequences is nonsense. I say emphatically that nothing shall be done to embarrass the mines so far as unskilled labor is concerned. They want to pursue a just and liberal policy. It is an accepted principle that English shall be the compulsory language. As regards education generally, we are prepared to work on the basis of the compromise which was reached fifteen months ago by representatives of the Volkskies and the official representatives of the Government."

AN AMOROUS GIANT.

Forbidden Introduction to a Gigantes He Finally Wins.

All the elements of romance are bound up with the story of love of a young man and a young woman. For Miles Mariell, the Tyrolean giant, Mr. Darrell is the son of a wealthy farmer in the province of New South Wales. He is 24 years of age, 8 feet 8 inches high, and broad in proportion to his height. He is a strong, high, and passably good-looking Darrell fell in love with Mariell at Vienna, and determined to marry her, but his manager proved obdurate. He followed her to Berlin and London, and at last attended nearly every performance at the Hippodrome.

The climax came on Thursday, when it is alleged that Darrell stood up in the stalls and addressed the object of his affections before the astonished audience. He was met with a surprise of interruption over, the officials requested Mr. Darrell to desist, and he left the theatre. On Friday night although he had purchased tickets, he was refused admission to the Hippodrome.

Yesterday Darrell was introduced to Mariell in the Angel Hotel at Guildford. The giant followed Mariell in motor-car and overtook her at the Surrey town, where in spite of reserved opposition from the manager he was introduced to the lady, who shook hands and smiled on him encouragingly. Surrounded by their friends the couple sat down to lunch together, and Mr. Darrell seized the opportunity to advance his suit.

The manager consented to write to Mariell's parents and ask whether they would permit the young couple to become engaged.

Bishop for Sunday Games.
The Bishop of Oxford declared himself in favor of Sunday games in the course of a speech which he delivered at Carlisle recently at a meeting in support of the national Sunday observance movement.

"I am indignantly in favor of opening museums and picture galleries on Sunday, but I would have people of leisure act as custodians and guides to visitors to these places," he said.

"It is the same with Sunday games. Recreation is not a sin. We have enough sin in the world without going about manufacturing artificial sins."

"Those people, however, who have all the week in which to play golf might well go down on Sunday among the moor and join in their games. It would be a beautiful thing if the people met their servants and other employees on Sunday."

"If you ask me if banqueting on Sunday is right, I should say it is not. I am not sure that many banquets on any day of the week are not wholly wrong."

"If rich people want to give banquets on Sunday, let them give them to their servants and other employees. I could see some sense in that."

Bulrush Church.
The first place of worship in Western Australia was unique in two respects—the material of which it was built, and also the several purposes to which it was devoted. This remarkable building was made at Perth by soldiers, shortly after their arrival in 1829, and was composed almost entirely of bulrushes. In addition to its use on Sundays for divine worship, it occasionally served as an amateur theatre during the week, and during the whole time as a barracks.

ROAD IMPROVEMENT.

Why the City Resident Gains as Much as the Farmer.

In many respects there is a certain amount of sameness in the different phases of our physical condition. This is more apparent in our country than almost any other, says The Motor News. The system of road building has been faulty as well as costly. Much expense has been put upon the common roads year after year, and still there are seasons when most roads are in an unfit condition for general purposes. This is not the fault of purpose, but of mode of treatment. Much of course is due to the newness of the country and the constant 7/20 demand for labor account cost in making farms, building bridges and otherwise attending to what may properly be regarded of prime importance. As the country advances in other respects the necessity for good roads becomes more insistent.

If the common roads of the country were brought to a condition that would enable farmers to market their products at all seasons of the year, the cost of living in town and city would be greatly lessened. The result would be among laboring people and the operatives of industrial concerns would be greatly benefited. The result would be a better life, and the result would be a better life.

Why and how are the two questions which must be answered. From the point of view of the farmer, the question which must be answered is: How can we get our products to market as soon as harvested and when the price is high? The answer is: By having a convenient time they may not get there at all because of bad roads. This naturally compels the farmer to lower his prices, to the great detriment of the producer and without appreciable benefit to the consumer. The average family in town or city buys only in small quantities at one time, say a day's or a week's supply. What is the result?

The speculator, finding prices low and knowing that in a little while the bad roads season will be on, when competing products will be kept from the market centres, buys up the surplus and stores it away for the day of necessity, when he can demand and receive his own price, and the result is that the mechanic and operative of shops and factory is forced in winter to bring to market his goods at a loss. The result is that the mechanic and operative of shops and factory is forced in winter to bring to market his goods at a loss.

There are abundant indications in this picture that this needless, three-year-old habit of paying for road requirements and justifies her owner's

"KIND I LIKE TO MILK."
Fine Specimen of a Three-Year-Old Jersey Milch Cow.

The kind I like to milk! What a text is that from which I have taken my sermon on dairying! No man likes to milk a cow that does not fill his glass with some measure of delight; no man likes to milk a cow that does not respond at the pail for the feed that enters her mouth.

There are abundant indications in this picture that this needless, three-year-old habit of paying for road requirements and justifies her owner's

"THE KING I LIKE TO MILK."
Incumbent, that she is of the kind he likes to milk. It would not be a difficult matter to commence at her head and go back point her tail and point out the characteristics which tend to justify that example. Note the attentive ear, the strong jaw, the slim neck, the excellent shoulders, the prominent backbone, the long and (for a milker) deep middle piece, the well-arched flank, the square under with its well placed teats, the thin, incurving thigh and the rising pelvic arch.

It does not follow that this heifer will ever yield milk enough in one year to make 100, or 500, or 1,000 pounds of butter. Outward indications do not reach that far. It does follow, however, that she has a good dairy form and that she, and others like her, with the care and feed such cows deserve will give a good account of themselves, will be cows that any dairymen can milk with great satisfaction as well as handsome profit.

Incubator.
Set the machine level in some dry, well ventilated room, where there are no great extremes in temperature; run it for a short time without eggs and get familiar with its peculiarities, studying all the details; fill and trim the lamp and set it at least once every day and keep the temperature as close as possible, and no one with ordinary intelligence ought to make a failure of the hatching business. It does not require extraordinary genius or ability, but no indolent or careless party need apply.—American Poultry Journal.

Just Herself.
"It was looking about in Bargen's millinery department to-day," began the young wife cooingly, "and I saw the sweetest thing—"
"Yes," interrupted her foxy husband, "that's a great idea, Bargen's to put mirrors all around where you women congregate."

Bit of Advice.
"Why, you took the words right out of my mouth," she protested.
"Well," he replied, "you shouldn't try to talk when I am asserting you."

England's potato crop averages over six tons an acre. Russia grows barely two tons to the acre.

Announcement

NOTHING but the best is the policy of this store. To offer over and always the best value obtainable is our aim, so that when we decided to put in a new line of women's shoes, this policy was carefully adhered to. We wanted the best, therefore decided upon the one shoe that, in our estimation, offers absolutely the best value and style and is the most satisfactory shoe

The "Queen Quality" Shoe

It is presented for your consideration with our unqualified endorsement and assurance that in fit, style and comfort, it is far and away ahead of the average woman's shoe of like price. Our entire new stock having been received, we are pleased to announce our

OPENING

ON WEDNESDAY, MAY 29TH, 1907.

We will at that time, show an assortment of the new and fashionable Spring models in all the popular leathers. We wish you to accept this announcement as a personal invitation to be present on that occasion.

GAETZ & GAETZ,

(Successors to Lord's.)

RED DEER.

MADE OF WOOD.

There's a whole host of articles made of this useful material shown here.

Things for use in the kitchen, the pantry, the laundry and the stable. Everything that ingenuity could evolve and foresight gather is in this collection. Each piece will bear rigid scrutiny as to quality and reliability.

No more interesting or complete assortment of **WOODEN WARE** was ever shown. And these prices must certainly be considered fair.

Smith & Barry
The Hardman People

50 PIECES FOR ONE DOLLAR

Yes, and flat work ironed; the rest rough dried, but beautifully cleaned at

THE STEAM LAUNDRY.

This includes everything, big and little, from a bed spread to a pocket handkerchief, providing it can all be washed together.—Now, ladies, here's your chance to take a rest.

HIGH AS OUR MEATS ARE HELD

in the esteem of good judges, that doesn't satisfy us. We want everybody to **ENJOY GOOD MEAT.** We want you to feel that you needn't be an expert to pick out good meat here. So we keep none but the best, though judging by our low prices you might not think so. But it is an easily provable fact nevertheless.

Professional Cards \$10.00 per year. It taken by the month \$1.00 per month.

WEDNESDAY, MAY 29th 1907.

FRENZIED FINANCE.

When the Liberal party met at Ottawa in 1893 and framed its famous Ottawa Platform it hit upon some grand ideas.

For instance, it "viewed with alarm" an annual expenditure of 30 million dollars by the Conservative government. Supplementing and explaining this clause whilst stamping the country, Sir Wilfrid Laurier said he could promise that if the Liberals got into power they would cut it down many millions—four millions at the least.

Fourteen years have passed since these "views with alarm" and promises of economy were handed out. We have these Liberals in power with an expenditure of 126 millions. Instead of 4 millions less, the outlay is four times as much as it was in 1893. This is not all. The government finds it so hard to borrow money to renew the country's debt as it falls due that short term notes are being given at present for many millions. Yet, scarce as money is, and hard as it is to borrow on favorable terms, the Liberal government is spending 25 millions this year more than the revenues, and this will all have to be borrowed.

A large and influential convention assembled in Ireland last week to discuss the plan of self government for Ireland. They unanimously repudiated the plan for a limited Irish council, which was all the Liberal government had to offer in fulfillment of its campaign promises. This action killed the hope of any home rule legislation by the present parliament, created a serious split in the government's forces and may have far-reaching results. The temper of the convention was plain, and no one had a word to offer in behalf of the bill. Home rule or nothing was the unanimous sentiment, and the resolution rejecting the measure, proposed by John Redmond, commanded every vote.

Providence has arranged for the free circulation of air all over the planet, and man has apparently set his face to negative the generosity of nature. We say "man" advisedly, for salvation in this case certainly comes of women. That peculiarly feminine instinct for wide open windows has saved the situation. When the head of the household has reconstituted in vigorous terms against heating the "whole outside," as he contemplates the departing contents of his coal bin, he does not always realize that he is getting life and health in exchange. Just why women should possess a monopoly of common sense on the question of fresh air we do not know, but that appears to be the case.

The flour mills of the west are all working overtime to supply the demand for flour for the Orient. The Lake of the Woods flour mills alone report sales recently of 200,000 bags of middle grade for the eastern markets. Wetaskiwin, Calgary, Edmonton and other mills are all pushed with orders and we hope in a short time to see the Red Deer mill in the hands of a good pushing company and to see the wheels humming night and day turning out a brand of flour that will make Red Deer famous.

There are twenty well equipped collieries in Alberta and Saskatchewan, besides countless smaller mines supplying coal for local wants. In 1906 the production was a million tons of the

value of over two million dollars. In eighteen years production had increased fourteen fold. The coal bearing areas of these provinces are placed at 65,000 square miles.

ABOUT SWEARING.

A vigorous campaign is being waged all over the Continent against the useless habit of swearing. The bishop of Carlsruhe delivered a sermon recently on the subject in which he said: "Anyone who swears discloses the weakness of his vocabulary. He does not know the possibilities of the English language, or has not the skill to manipulate it so that it will yield the amount of fire he wants. You can do almost anything with common words."

"Words can do things that make the ordinary bits of profanity look like feeble scarecrows stiffened up with lance stakes. The cure for profanity is merely wit enough to handle your words so that swearing will seem like baby talk in comparison. Profanity is an evidence that the swearer, no matter how well educated he may be in other lines, is still sadly lacking in the knowledge of the English language."

NEW REGISTRATION DISTRICT.

The Alberta Gazette, published by authority of the Government of Alberta in its issue of May 15, contains the following official notice: **REGISTRATION DISTRICT OF RED DEER.** Edmonton Thursday, May 9, 1907.

Under the provisions of Section 1 of Chapter 12, of the Ordinances of 1900, His Honor the Lieutenant Governor, by and with the advice of the Executive Council, has been pleased to order the withdrawal from Wetaskiwin Registration District of all that portion lying south of the line between Townships 41 and 42, such portion so withdrawn to be known as the Registration District of Red Deer; and it is further ordered that the Registration Clerk for the said Registration District of Red Deer be the Deputy Clerk of the Judicial District of Wetaskiwin at Red Deer.

M. J. MACLEOD,
Clerk Executive Council.

The storekeeper who does not advertise and who does not systematize business might as well put on his shutters. Judicious advertising means financial success. Never in the history of the commercial world has advertising occupied so dominant a place as it does today.

The Canadian Pacific Railroad company complains that Alberta oats are so heavy that when cars are loaded only to their apparent capacity they are not able to stand the strain. The standard for oats is 34 lbs per bushel, while the oats of Alberta will average 42 pounds.

NOTICE.

NOTICE TO CREDITORS AND OTHERS OF ANDREW JOHN NYBERG, DECEASED.

NOTICE is hereby given that pursuant to an order made on the 6th day of May, A.D. 1907, by the Honorable Mr. Justice Stannard, creditors and others having claims against the Estate of Andrew John Nyberg late of the Town of Red Deer, in the Province of Alberta, who died on or about the 25th day of March, 1907, and to whose last will and testament Letters Probate were granted to Edmund Peterson Cronqvist and K. J. Bjorkgren on the 6th day of April 1907, DO SEND in particulars of all such claims, together with statement of security (if any) held by them to Messrs. Greene & Payne, Advocates for the said Executors by mailing, postage prepaid, or otherwise delivering the same to said Advocates at the address below set forth on or before the First day of June, 1907, after which date the said Executors will proceed to distribute the assets of the said deceased among the parties entitled thereto, having regard only to the claims of which the said Executors shall then have notice, and the said Executors will not be liable for the assets of the said deceased or any part thereof so distributed to any person of whose claim they shall not then have had notice. Dated at Red Deer, Alberta, this 6th day of May A. D. 1907.

PROSECUTION UNDER LORD'S DAY ACT.

Fred English, Calgary agent
of the C. P. R., has been served
with four notices of infringement
of the Lord's Day Act by the R.
N. W. M. P. authorities. This
action is based upon in-
formation laid by Inspector
Primrose, of McLeod, who on
April 12th, submitted a number
of crime reports to the depart-
ment of the attorney general on
violation of the Lord's Day act.
Three of these cases were against
the C. P. R. and one against a
Chinaman who distributed
laundryware on Sunday.

The attorney general's depart-
ment issued orders to prosecute.
The summons specifies that the
offence is for work in yards at
Clareholm, Nanton and McLeod.
The C. P. R. solicitor has in-
formed the department of the
attorney general that they will
test the validity of the conviction
by the magistrate or justice of
the peace, and have asked that
police court proceedings against
the company be withheld. The
attorney general's depart-
ment have replied that the course
of justice will not be interfered
with. The company will appeal
to the supreme court against
any conviction.

This is the first action in Al-
berta arising out of the Lord's
Day act, and probably the first
case against the C. P. R. It is
said that work similar to that
done in the places complained of
is done every Sunday in Calgary.
The alleged offence occurred on
March 31.

10,400 ACRES UNDER CULTIVATION.

A. Thompson, eighteen miles
east of High River, Alberta, has
probably the largest number of
acres under cultivation of any of
the settlers of the West. He
has a total of 10,400 acres of fall
wheat in. All the breaking of
the ground is done by steam
ploughs. This is almost beyond
imagination. If there was a man,
team and single binder placed in
this field to cut this wheat, it
would take them over three years
to cut the grain. There will be
probably fifty binders or so
working at once.

It has been suggested that the
government take over the saw
mills of British Columbia in order
to break the lumber combine.
The idea is a good one and the
government will have the strong
support of a long suffering public
if they take steps along those
lines.

BOARD OF TRADE.

The regular meeting of the
Board of Trade was held Tuesday
evening last in Alexandra Hall.
The following members were
present: President Oumette,
secretary Munro, F. B. Fisher,
W. Bannerman, D. G. Horn, T.
A. Gaetz, A. T. Stephenson, R.
B. Welliver, W. J. Botterill, R. L.
Gaetz, G. H. Bawinheimer, J. A.
Caraswell, D. M. Sanson, Harry
Mitchell, M. J. Manning, Dr.
Collison, E. A. Molson, W. Hewson,
W. J. Coates, Geo. Beatty, H. H.
Humber, A. E. Halliwell, Frank
Harrison, F. W. Galbraith.

A communication from the
Wheat Belt Review, Edmonton,
asking the Board for weekly news
of Board's doings, was left with
president and secretary.

The Farmers Advocate, Win-
nipeg, desired rural views for
mid summer number. Referred to
a committee consisting of T. A.
Gaetz and Caraswell.

Chas. M. Hayes, president of
the Grand Trunk Pacific, wrote
that he would give the question of
extension of G. T. P. to Red Deer,
his careful consideration.

Dr. George, of Innisfail, wrote
the Board stating he intended
adding a one and a half storey
building to his property on Ross
Avenue and contemplated plac-
ing his now famous museum
therein. This would be an edu-
cational factor for the town and
desired to know what assistance
the town could give him. Messrs.
R. L. Gaetz and J. A. Caraswell
were appointed a committee to
deal with the question.

The secretary of the Associated
Boards of Trade convention, to
be held at Prince Albert in June,
wrote regarding matters re dele-
gates, program, etc.

R. L. Gaetz, as the only mem-
ber of the committee present to
whom was referred the question
of subjects to be discussed by this
Board at said convention, sug-
gested that the meeting be thrown
open for discussion of subjects
to be presented at said conven-
tion. He strongly urged the need
of agricultural colleges for our
province, the preservation of our
forests, the need of a government
commission on fire insurance and
co-operative coal mining under
government supervision.

Mr. Phillips spoke strongly
in favor of making the question
of transportation one of the vital
questions for consideration. He
felt the Hudson Bay route our
natural outlet and he thought the
Board of Trade should urge the
governments to open up the road.
While in B. C. he found it took
half the cost of our oats to get
them there. The coast farmer
made that much extra on his
grain.

A. T. Stephenson said the
Mail and Telegraph service
should come in for a big share of
consideration. He had got tele-
grams in the afternoon forwarded
from Calgary in the morning
asking him to meet the noon
train. He understood an agri-
cultural college was spoken of
in connection with the University
at Strathcona. He strongly
urged in favor of a customs sub-
agency being established here.

The meeting decided that the
delegates to the convention in
Prince Albert take up the ques-
tion of the early establishment of
an agricultural college in the
province and that the customs
department appoint sub-collectors
at leading points throughout the
province.

Mr. Sanson favored govern-
ment ownership of telegraph
lines in the west, and was anxious
to see every effort made to bring
the associate Board of Trades to
Red Deer next year. Mr. Sanson
reported having interviewed J. T.
Moore re university. Mr. Moore
claimed the University question
was not yet settled and would be
brought up at the next session.
He suggested the town purchas-
ing a site for educational
purposes as we might at least
secure a collegiate institute for
Red Deer.

A. T. Stephenson did not
believe in purchasing property
for a building he felt we would
never get.

The report was adopted after
Mr. Sanson had withdrawn the
clause asking the council to pro-
cure a site for educational
purposes.

Mr. Botterill reported regard-
ing place of meeting, and the
President Mr. Botterill and Mr.
Welliver were appointed to make
full arrangements regarding the
place of meeting.

President Oumette, secretary
Munro and H. H. Gaetz, with W.
Botterill, J. L. Crawford as al-
ternates, were appointed dele-
gates to Prince Albert convention.

Mr. H. L. Gaetz, was added to
the list of members.
Mr. Galbraith gave notice of
motion that at its next meeting
the Board consider the establish-
ment of a trade week for outsiders.
Messrs. Sanson, R. L. Gaetz
and Drummond were nominated by
the President as an executive to
assist the officers in getting the
business of the Board in shape
for the monthly meeting.

On motion of R. L. Gaetz and
Mr. Mitchell the secretary was
instructed to call the attention
of the overseer of L. I. D. 38-27
to the bad state of the piece of
road leading out of town on the
south west between sections 18
and 7. The board then adjourned.

EVERY ALBERTA FARMER SHOULD EAT

B. & K. OATS

exclusively. Because they are manufactured in
Alta. from Alberta Oats, and are second to none.

PRACTICAL WATCHMAKER & JEWELLER,

ROSS AVE., RED DEER.

*If you want to carry a reliable timekeeper, come in
and see our stock of watches, and select one. We
also carry a good stock of Clocks, Jewellery, etc.*

FARMERS, READ THIS!

We have just received a shipment of the
new, low down De Laval Cream Separators
with only one neck bearing, which makes this
Separator one of the lightest running and most
convenient Separator sold anywhere. We can
sell them cheaper than any other make of the
same capacity, on terms to suit the purchaser.
It will pay you to call and see us before placing
your order elsewhere; or write us, and we will
bring you out one on trial.

We also have ordered a car of the Farmers'
Binder Twine, which we can sell cheaper than
any other dealer in Red Deer. Call and place
your order with us for the famous Red Star or
Samson Twine.

SPRINGBETT & BOWHEY.

BROOKSIDE SUBDIVISION

IS WITHIN THE TOWN LIMITS; is only four blocks from the P.O.; is three blocks from the business
centre; includes the new Court House Block; adjoins the School Property; has several Churches between it and the
Hotels; is one block from the Fire Hall and the property on which, some day, the City Hall will be erected; it is
surrounded by fine residences. What more can you ask?

Giving it away? Not yet, but nearly. The prices run from \$125 up to \$200 for specially good corners. Absurdly
cheap! Yes, but I am going to sell it off in the next six weeks, perhaps less. I don't want the top price. That is for you.

**Buy Now! There will never be another opportunity
like this in Red Deer. Never! No, Never! ! ! !**

No one has yet failed to make money on lots bought from me, and I have sold more lots, three times over, than all
other dealers in Red Deer put together. The reason is that in pricing them I never anticipate future values, not for a
minute. I am satisfied to sell for what they are worth now. They may be worth double the amount tomorrow, but that
is yours.—NUF SED.

Terms: One-Fifth down. Balance, 6, 12, 18 and 24 months.

 July 26—Waskasoo v Outlaws.
 10 games each.

CENTRAL ALBERTA STOCK GROWERS.

The meeting of the Central Alberta Stock Growers Association at Erskine, on June 5 and 6 promises to be the event of the season.

The C. P. R. company has granted the usual convention rates for the convention and parties going by train must take a standard certificate when purchasing ticket.

ALBERTA'S COAT OF ARMS.

Every province in Canada now has a coat of arms. Alberta was the last to receive a provincial emblem. Word has been received from the Herald's college that a design has been approved for this province and it will reach Ottawa in a few days. The Alberta shield, which has been approved, has a St. George's cross on the top and below it a range of snow-capped mountains with a plain and a field of wheat in the foreground. The design is quite a striking one.

Correspondence.

To the Editor of the News
 Dear Sir:—I was glad last week to notice that you made reference to a proposed movement to establish a regular half holiday for the business men of the town during the months of July and August, also you spoke of the desirability of securing some place for the young men of the community where they could have access to good reading matter and gymnastic equipment, particularly during the long winter evenings. I hear that the clergy are heartily and unitedly pushing this project, but what pleases me most is to know that the public press too is a strong supporter of this public spirited programme. Just go right on Mr. Editor and push this business through to success. Your congregation is larger than that of all the good ministers and your influence will count a most important factor.
 Wishing you every success.
 I am yours for Red Deer,
 AGRICOLA.
 Red Deer, May 23rd 1907.

The woman who is waiting until the furnace is not needed before she cleans house is in the soup this spring all right.

A sensation was caused at Wetaskiwin last week when a man named Hallifer, living near Asker, struck oil while drilling on his farm. The sample was sent to Calgary for analysis says the Times.

AGRICULTURE IN BRITAIN.

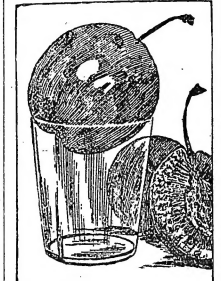

Severe Winter Experienced.—Skin Milk Cheese Made by Factories.
 Not for many years have we in Great Britain experienced anything like the severe winter weather which has fallen to our lot this season. Throughout the country heavy falls of snow, combined with keen frost, have rendered outdoor work extremely difficult. In many cases farmers have had to fall back on "hand feeding," with its accompanying hardships. One large flock master, with whom I recently had a talk, told me that in one storm alone he lost some three score sheep out of a flock of fifteen hundred. This was in Dorsetshire. The Glasgow cheese market is in a state of "materially inactivity." It was expected that the arrival of the New Zealand cheese would do something towards relieving the situation, but so far the stability of the market has not suffered from that quarter. Late made or "green" cheese are also in evidence. Home-cleared cheese commands from \$15.25 to \$17.50 per cwt. Dunslops are offered from \$17 to \$17.75; Canadian from \$16.25 to \$16.50. Various attempts have been made by British creameries to produce cheese from separated milk. A limited number of these cheese have found a market at about \$19 per cwt., and while they enjoy no great popularity, are very welcome in the poorest districts of large cities. I wonder if some of our dairy factories do anything in these lines.

The butter market is fairly active. The demand is almost entirely for fine grades, secondary and inferior lots being of small value. The Danish article comes to hand freely and maintains the leading position which it required long since. It is quoted at from \$27 to \$29 per cwt. Australian butter is in good demand at about \$25 per cwt., while the New Zealand product commands a trifle more. A very fair brand of butter is offered at about \$25 for the present.

A NEW CLOVER.

A Plant From the Black Soil of Russia Recommended As Forage.
 The Bureau of Plant Industry has been experimenting with a new form of red clover which came from the black soil region of Russia. The plant is practically hairless and therefore does not hold dust like the common red clover. For this reason it is believed that it will make a better forage plant for horses, since it will be much less likely to cause heaves and will be cleaner and more convenient to handle. Bloating in cattle is perhaps due in part to the presence of hairs on common clover. If this be true the trouble would be obviated by feeding them the new hairless Orel clover. Another objection to the common red clover is that it matures much earlier than timothy, with which it is usually sown. It is thus impossible to harvest the mixture at a time when the full value of both the clover and timothy can be obtained. The new Orel clover matures two weeks later than the common red kind, or at the same time with the timothy, and at a season when the farmer's attention is not so imperatively demanded by his corn, and also at a time when in the most of the clover belt the weather is more favorable for harvesting the crop without injury by rain.—Country Life in America.

The Lincoln Plum.
 The Lincoln plum here shown is described by the Ohio experimental station as being a variety of rare beauty and excellent for market, one of the best second early plums; quite free from rot in some seasons; fruit blossoms May 7; full bloom May 10; late blossoms May 15; in full fruit Aug. 15.
 Fruit large to very large, roundish-oblong, blunt at apex, slightly necked.

THE LINCOLN PLUM.
 cell stem long and strong and set at an angle; suture distinct, slightly depressed; color light greenish yellow, overspread with a beautiful shade of crimson; dots, many, very minute and indistinct; bloom, thin lilac; flesh light yellow, firm; pit rather large, free; quality only fair; tree only a moderate grower, but healthy, forms a round, shapely head; foliage very luxuriant; leaves large, quite prolific, but not so much as to require thinning of the fruit.

Tricked the Bishop.
 The Bishop of London recently celebrated his 49th birthday. One day, while strolling along a street in a London suburb, he saw a little boy struggling in vain to reach the door-knob of a house. The bishop's kindly nature prompted him to go up and knock so that the occupants could not fail to hear. Then he asked the boy, "Is that all I can do for you?" "No," replied the youngster, as he dashed down the steps, "You'd better run like the devil."

Strictly Proper.
 Customer—By the way, what is the proper thing in hats this season?
 Smart Clerk—Brains.

Crop Tenders

The undersigned asks for tenders for putting in 50 acres of crop on shares. Farm six miles west of Red Deer. Apply, 16. A. B. Purdy.

For Sale.
 Registered Short Horn Bull. Apply A. B. Purdy, Red Deer.

 Quarter-mile Pony Dash 14.2 or under 1st \$25, 2nd \$10, 3rd \$5
 Horses eligible May 31st not barred.

Everybody Agrees

that COD LIVER OIL and IRON are beyond question the greatest medicines known. Then why does not everybody take God Liver Oil and Iron? Simply because most people cannot take the Oil and few can digest the Iron in any ordinary form. These difficulties have been entirely removed by the introduction of FERROL, in which the Iron is scientifically combined with the Oil, rendering the Oil palatable and the Iron digestible. While

FERROL

is manufactured from the best quality of Cod Liver Oil (the whole of the Oil) and is richer in Oil than any other emulsion, while it contains just the right quantity of the best form of Iron and Phosphorus, it is so scientifically prepared that not one person in a thousand finds any trouble in taking it, and infants digest it without difficulty. Moreover the well-established value of the Oil and Iron is completely enhanced by the process of manufacture, and as the formula is freely exposed it is not to be wondered at that physicians everywhere have fully endorsed FERROL and used it largely in their practice. FERROL is invaluable for the treatment of any kind of Lung or Bronchial troubles, while for wasting diseases it has no equal, and

EDWELL - - - ALTA.

ATTENTION! Farmers of Red Deer District.

We are now located in our new warehouse just north of Snickman-Ker elevator, and we extend to every farmer an invitation to call in and see us and our new warehouse, as well as our complete stock.

Now that seedling is about over, you must get in shape for the Mower and Rake and Binder season.

MOWERS.

Our No. 15 and 16 Mower cannot be equalled for strength and cutting qualities. These Mowers have now been sold for three seasons, and we have yet to find a man who has used them make any complaint. The steel knife heel and pitman ends are far superior to those of Malleable Iron used by others.

The finger bar and knife back on these mowers are of cold rolled steel and adjustable wearing plates are provided for taking up wear.

The under draft increases the traction of drive wheels. The flexible mathboard prevents bunching of the hay and breaking of the board.

There is no lost motion on these mowers; the knife operates the instant the wheels begin to turn, thus avoiding the necessity of backing up to start cutting.

Breast Bushing, Ball and Roller bearings used where best adapted to requirements of each position.

Wheels are high and wide in face.

These mowers are noted for sure cutting, long draft and long life.

RAKES.

Massey-Harris, All Steel, Self Dump.

It has ratchet dump
 It has great capacity
 It has the famous oil tempered steel teeth
 It has six cleaner teeth
 It has an all steel frame
 It has steel wheels with wide double flanged rims
 It has easy movements, no jerking or jarring when dumping, and the teeth return close to windrow, etc.

Call in and see the goods; we like to show them, and you will not be forced to buy. That is not our habit.

Large stock of repairs carried for all goods, thus assuring no delays.
 Your patronage solicited.

WILSON & McCUTCHEON.

We have a nice line of Buggies and Democarts, Gray & Son's goods, see these and get our prices before you buy.

ARTHUR B. NASH, Florist.

I beg to announce that I have taken over the

GREENHOUSES

lately operated by Joseph Slade. I anticipate the patronage of all, as my prices will lie within everybody's reach. Cabbage, Cauliflower, Celery, Bedding Plants, &c., ready in season. Splendid Rhubarb ready now, 10c. per lb.

Garden work done by the Hour, Week or Contract, under personal supervision. Estimates free.

S. R. ELWELL, Manager.

RED DEER MEAT MARKET.

Special This Week

SOME REALLY FINE VEAL

Rhubarb Tomatoes Strawberries

SMOKED FISH.

P. M. PANRUCKER Butcher,

PHONE NO. 4.

NORTH RED DEER.

Bawtinheimer & Co.'s New Sub-division

off the Burnt Lake road, beyond the Railway bridge. The closest in of any Sub-division on the Market to-day. The whole property lies right along Gaetz Ave. We are offering for sale now

103 LOTS IN BLOCKS 3, 4, 9 & 10.

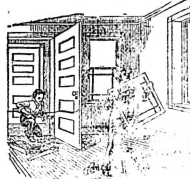

LOTS	PRICE
33ft by 120ft and 33ft by 148ft in section running from Main St. to the railway track, along Beach, Cherry and Oak Aves.	To open the Sale we will sell at \$50 to \$75 each, according to location.

We have some choice Farm Property of our own and listed with us, which is excellent value. If you want residential or business property, we have a very good selection.

OFFICE: Opposite Post Office.

CUSHING BROS. CO.

LIMITED.

FOR YOUR SASH, DOORS OR BLINDS get an estimate from us before deciding upon where to buy. It will be money in your pocket, as we can guarantee you low figures in a better quality of material than you can possibly get elsewhere.

We handle nothing but the best, and we are content to "live and let live." Our stock of lumber is all in every way.

K. M. BYERS,
MANAGER RED DEER YARD

Local and General

J. L. Crawford made a business trip to Calgary last week.

Council proceedings on page two of this issue.

Clarence F. Bissess has been appointed a commissioner for taking affidavits.

Dr. Plaxton will leave for the east in about ten days. He will be gone for a month.

Miss Bower spent Victoria Day with Mr. and Mrs. J. A. Youmans, at Ponoka.

James Colison, of Iroquois, Ont., is spending a few weeks with his son Dr. Colison.

L. C. Fulmer enjoyed a days fishing at Sylvan Lake Victoria Day. He brought home some nice pike.

Ivey & Coultas are advertising boots and shoes at only a shade above cost. See add on page two.

It will be a source of gratification to Mr. Farrell's many friends in Red Deer to know that he will remain here another year.

The baseball game, played last night between the Outlaws and Waskasos, resulted in a win for the Outlaws by a score of 8 to 7.

Robert Page, of Pine Lake was in town last week. Mr. Page is anxious to secure a little more property in Red Deer. He knows a good thing when he sees it.

Beure and hear Gavin Spence, the world famous Scottish tenor and entertainer, and Miss Nannie Strachan, Scotland's wonderful soprano, in the Odeon hall, Thursday evening 30th inst. Seats at Grieve & Berry's drug store.

The 11 months old baby of Mr. and Mrs. P. M. Lidfors, from Sweden, who reside on Victoria Avenue, died on the 21st of May, of throat trouble, and was buried in Burnt Lake cemetery May 24th. Rev. Mr. Fortune conducted the funeral service at the residence.

We understand steps are being taken by the town authorities where a gas drilling outfit can be procured with a view to drilling near Red Deer for natural gas. We are pleased to hear this news and hope to have more definite information on the matter shortly as there are numerous indications of coal gas and oil in this neighborhood.

Frank Farley was in town last week. Frank is an authority on buffalo robes and he had with him a genuine skin, purchased from an old timer up the line. It was a beauty and was worth several hundred dollars. He was offered \$125 here for the robe and laughed at the idea of selling for that figure.

Mr. O. Franks and Mrs. Braton of this town, have purchased the Everts hotel from Geo. Parker and they will take possession of this well known hostelry at once. Mr. Franks was for some time foreman of this office and has been lately connected with the Advocate. Both Mr. Franks and Mrs. Braton are well known and highly respected in Red Deer.

Tell your friends of the "STA-ZON" after using. No wrinkles, and they stay on. Our optician adapts lenses accurately.

H. H. CAETZ
OPTICIAN.

Public School leaving Examination.

Mr. McLean, principal of the Public School is pleased with his Public School leaving class. The following is the result of the monthly examination recently held:

Victoria Day,

Queen's weather greeted our citizens on Victoria Day and although there was little doing, the citizens enjoyed themselves by driving, fishing, gardening and other amusements.

The early train to Camrose took a number of excursionists north to the lively little town on the Wetaskiwin branch where a good time was reported.

The noon train took quite a crowd to the sports at Blackfolds where all kinds of games were indulged in.

The "Wanderers" football team were present and took part in the proceedings, defeating one of the teams by 1 to 0, and being defeated by Lacombe by 1 to 0.

They put up a splendid game and are the makings of a first class team. A base ball nine from town was also present in the evening and after playing three or four innings a dispute arose and the game was called off. The score stood, Red Deer, one, Lacombe, five. The home team claim the umpire did the scoring.

AT RED DEER.
In the afternoon a most interesting seven innings game was played on the exhibition grounds between the Wigwags and Waskasos. There was a very fair attendance of spectators and the greatest interest was manifested by those present. A. Munro made an excellent umpire and gave entire satisfaction. The score stood at the close:

Wigwags	1 0 3 1 1 0 1 2-18
Waskasos	3 0 2 1 0 2 2-10

Had it not been for the bad break in the fourth innings the game would have been very even throughout.

The following was the line up of the teams:

Wigwags	Bingham	2b	Putman
Green	cf	Gay	
Berry	2b	Hanna	
Wilson	rf	Reilly	
Syer	3b	Smith	
Porter	ss	Hamby	
Plaxton	1b	Lindsey	
Jenkins	c	Mann	
Richards	p	Blackmore	

Eckville.

It is officially stated that a new local improvement district is to be formed west of Eckville as soon as the necessary arrangements are completed comprising townships 30 and 40 in ranges 5 and 6. This is an instance of how quickly a neighborhood can become settled up and organized into a working community. It is not much over a year ago since the settlers in the whole of the above district could be counted on the fingers of one hand. That is the way the world wags anyhow in this western country.

School Districts will be the next order. Quite a number of the new settlers are getting their families out with them and will no doubt be anxious to obtain educational facilities for their children as soon as they can.

There was a much better attendance at the Church service held here on Sunday evening. Mr. Kennedy was the preacher and seemed very pleased to see the increased members.

Stickland and Reed report sale of the following properties. House and 2 lots Eccles street, W. Johnston to E. J. Edgington. One quarter Sec. N. W. town H. A. Mitchell to C. M. McMillan, of Nova Scotia. House and two lots on Morrison street, G. Gudmundson to M. McMillan. House and 2 lots in Fairview to S. H. Ripper.

The Races.

Preparation for the race meet on June 13 and 14 are being pushed with all speed.

Chairman Welliver, of the sports committee, has received word that there will be at least fifty horses represented. About thirty stalls were placed at the track for the accommodation of visitors but some fifteen or twenty more will be built at once to meet the requirements of the association.

For Sale.

Two fine pianos, almost new on a Newcomb and the other a Bell. These will be sold cheap and on your own term for quick sale. Apply News office, or to J. P. Rice.

Sale Register.

June 11th—Mrs. Cornett has instructed the undersigned to sell on James Beatty's farm, 3 miles from Red Deer on the main trail to Innisfail, a splendid lot of first class cows and young stock. A. B. Nash, Auctioneer.
